## PHARMACOVIGILANCE CELL -01

Pharmacovigilance is the science and activities relating to the detection, assessment, understanding and prevention of the adverse effects of drugs or any other drug-related problems.

Pharmacovigilance Cell functions under the Department of Pharmacology, TRR Institute of Medical Sciences, Inole, Patancheru.

Recently, its concerns have been widened to include the following:

- Herbals
- Traditional & Complementary Medicines
- Blood Products
- Biological & Medical devices
- Vaccines

### **Objectives:**

1. To monitor adverse drug reactions(ADRs) in the TRR Hospital.
2. To create awareness amongst the health care professionals about the importance of ADR reporting in India.
3. To pick up ADRs occurring in the patients admitted to hospital and report the same to appropriate authorities. i.e. National Pharmacovigilance Center.
4. To carry out causality analysis of ADRs.
5. To take up activities to strengthen the ongoing National Pharmacovigilance Programme.

### **Scope of the Committee:**

The committee shall be responsible for planning, implementing and monitoring of various activities of the Pharmacovigilance.
